## Ancient Kimberley Shores to Indonesia's Emerald Isles

Sail from the ancient, sandstone landscapes of the Kimberley to the storied islands of Indonesia in unparalleled ultra-luxury. Follow a path once traced by explorers and spice traders, be humbled by thundering waterfalls, and marvel at tidal reefs and Indigenous rock art sites. Each day reveals a new frontier of wilderness, culture, and beauty.

Departing from the shores of Broome to the temple-fringed coastline of Bali, you'll follow one of the most remarkable sea routes in the Indo-Pacific, where remote wilderness gradually gives way to coral kingdoms and storied spice isles. Over three weeks, your journey weaves through the Kimberley's ancient sandstone gorges and powerful tidal wonders, then arcs into the marine sanctuaries of Raja Ampat, a renowned epicentre of reef biodiversity, before continuing towards the fabled islands of the Indonesian archipelago – a remarkable blend of Expedition and Discovery Voyages. Along the way, encounter Aboriginal rock art, cathedral-like river canyons, protected reefs and the World-Heritage-listed Komodo National Park, with opportunities to savour local culinary traditions and the gentle cadence of life in far-flung coastal communities.
